GAME INSTRUCTIONS

Welcome to the Eye 2 a Greener Future Game, a contest made between three country partners in an Erasmus and eTwinning project

You have:
A game board
4 counters
1 dice
1 deck of cards
1 deck of jokers

- 1 Every gamer chooses a colour counter. You all throw the dice and the one with the higher score starts the game
- 2 In turns, throw the dice and count the numbers over the gameboard
- 3 The person on your right takes one card from the deck and reads the question.
- 4 You answer the question and if it is correct, you keep the card.
If the answer is wrong, the card gets back to the end of the deck
- 5 If you step on a ladder, move to the number it is pointing, either forward or backward
- 6 If you step on a logo of the project, find the joker card and follow the instructions on it

The game ends when the deck of cards is empty. You cross the bridge to start the game again as many times as needed

The gamer with more cards is the WINNER

EYE TO
A GREENER
FUTURE

Go to the end
of the game,
cross the
bridge and...
start again

What kind of opportunities does the ALMA program offer to disadvantaged young people?

The ALMA program offers disadvantaged young people aged 18–29 the chance to participate in a 2 to 6-month work-based learning experience abroad. Through internships or on-the-job training in another European country, participants gain professional and social skills, build self-confidence, and improve their chances of entering the job market. The program also provides guidance and support before and after the mobility period.

What do Erasmus+ projects aim to provide to participants?

Intercultural experience: Gaining tolerance, open-mindedness, and cultural awareness by interacting with people from different countries.

Language skills: Developing communication skills by practicing a foreign language.

Personal development: Increasing self-confidence, responsibility, independence, and problem-solving skills.

Academic/professional skills: Gaining knowledge and experience relevant to the field, learning new methods.

European citizenship awareness: Recognizing shared values, strengthening democratic participation, and an understanding of active citizenship.

Employability: Gaining a greater advantage in business life through international experience.
