

I.E.S. Vega de Atarfe

1

TEAM NAME _____

Make evidence you found out by adding photos of the group

You have a mission:

You have just arrived in Medina Garnata from Medina Ilbira.

Your team leads the group through the street maze in Albaycín, the Arab quarter, to obtain proof that they were here and solved the riddle. And pay attention ... you can't leave the area without a group pic in the most popular mirador

Where are you?

From this viewpoint you can see the place where the Nasri sultan Muley Hassan asked to be buried, the point where the last ray of sunlight strikes the earth in his dear Granada. What's its name?

Funded by the European Union

IES Vega de Atarfe

You have a mission:

You have just arrived in Medina Garnata from Medina Ilbira.

Lead your team through the street maze in Albaycín, the Arab quarter, to obtain proof that they were here and solved the riddle

Where are you?

What a nice smell! ... It's the traditional Christmas sweets made by an old pastry shop, mantecados, marzipan, chocolates ... what's its name?

Teachers can wait at Cafetería Casa Pasteles tasting traditional products

Lead your team through the street maze in Albaycín, the Arab quarter, to obtain proof that they were here and solved the riddle

Where are you?

This is the door where defective or fraudulent scales confiscated from traders were displayed. You can see some examples hanging. What's its name?

Did you notice the Z form of the door. It was a deffensive way to make the way difficult for enemies.

You have a mission:

You have just arrived in Medina Garnata from Medina Ilbira.

Lead your team through the street maze in Albaycín, the Arab quarter, to obtain proof that they were here and solved the riddle

Where are you?

At the time, homes had no water and people had to fetch water for daily use from the cisterns called "aljibes".

There are 27 in the Albaicín. The sultan's, Aljibe del Rey, was the largest one, $300\text{m}^3 = 300.000$ litres.

The sultan could drink water from it just if fish or turtles were swimming there.

In the most famous viewpoint in Granada you can find a cistern. It's just 62 m^3 .

What's its name?

Where are you?

There is a nice promenade, along Darro river, which is just between The Alhambra and The Albaicín and some famous bridges cross the river.

It starts in Plaza Nueva and, although it is called Paseo del Padre Manjón, its popular name comes from the name where it ends.

What's its name and why?
